What it means to be a “Life Teammates® Club” Member

As a member of the “Will To Live – Life Teammates Club” my Teammates and I:

- ...are proud to be a part of a team, and the “My Life Teammates” concept represents the importance of being a great teammate and always putting the team first!
- ...know that our teammates today are our Life Teammates tomorrow, and we are always there for each other, regardless of whether we are on the field or off.
- ...realize that we need to look out for each other, pick each other up, and help each other to always find the good in all of life’s trials and difficult situations.
- ...will always try to make sure that our Life Teammates know how we feel about them, and know that we are always there to help them!

“Although good teams may win, great teams love each other!”

**Thanks for being part of a nationwide “team” that wants to help show each other
